ABOUT NZ Pensions, and Insurance & Investment Services Ltd

NZ Pensions is a trading name of Insurance and Investment Services Ltd, and has been in use since 2007, specialising in UK Pension transfers. Since that time NZ Pensions has helped hundreds of clients successfully transfer their UK Pension savings to qualifying superannuation schemes in NZ.

Insurance and Investment Services Ltd also provides a personalised service for individuals and families looking for Life Insurance, Income Replacement, Medical Cover, KiwiSaver and Investment advice. Detailed information can also be found in our disclosure documents.

OUR SERVICES

UK Pension Transfers

NZ Pensions offers a comprehensive UK Pension Transfer service, with a range of portfolios and **QROPS schemes** to suit client risk profiles and investment preferences. Transferring your UK Pension makes perfect sense if you now live in New Zealand and are planning to retire here.

Pensions are complex and the UK rules change constantly – with your pension savings here in NZ you will be in control, and you can trust that your funds will be invested wisely and safely for your retirement in a diversified managed superannuation scheme.

We **organize the entire transfer process for you** – your funds will be in your ownership and control throughout, transferring directly from your UK scheme to your new scheme in New Zealand.

NZ Pensions does not give taxation or legal advice – there can sometimes be NZ taxation implications for pension transfers undertaken once a migrant's 4 year residency period has elapsed, and we always recommend that clients obtain the appropriate independent taxation and legal advice as applicable.

Investment and Retirement Planning

We can help you develop a suitable investment plan – whether this is growing a nest egg for a comfortable retirement, or whether you already have a lump sum accumulated and want to invest further for the future. In most cases this planning process is quick and easy, however if your circumstances are complex and you require a more comprehensive solution then we can refer you to an appropriate Financial Planning specialist.

Investment and KiwiSaver Implementation Services

If you have a specific investment requirement and would like some advice and assistance on implementing that investment, we can help. You may already know the investment outcomes you are looking for and would just like some advice on which type of fund or product could work for you.

We can help you with simple investment savings to meet your financial objectives. You may want to generate an income in retirement, start saving for future goals, or invest the proceeds from the sale of another asset.

We have several **Managed Investment Funds** available for clients, offering a range of diversified portfolios to suit your risk profile – these funds accept lump sum deposits or regular savings, and withdrawals can be paid to you at any time, or periodically if you wish.

Kiwisaver has to be the basis of any retirement plan, and we can assist with arranging an appropriate portfolio with one of the three Kiwisaver schemes we have available for clients.

It is easy to join or switch to another scheme - whether you are already in Kiwisaver and would like us to advise you, or whether you have not joined Kiwisaver yet, we can help with investment advice to ensure to make the most out of the Kiwisaver opportunity.

Personal and Business Insurance Planning

An insurance plan can be tailored specifically for you, to ensure you have in place the insurance protection you need, at an affordable cost. You tell us about you and your circumstances, then we work to develop the right product options to protect you and your loved ones.

Our plans and recommendations can include the following insurance products :

Life Cover Trauma Protection Income Replacement Key Person Cover

Mortgage Protection Health Insurance Total & Permanent Disablement Cover

Insurance Product Advice and Implementation

If you already know what Insurance you want, quotes and product options can be arranged without planning and advice from us, on a quote and implementation only basis. We can then help you implement the products with the insurer to ensure you get what you cover you require, at a competitive price.

HOW WE GIVE ADVICE

We follow a simple three step process when providing advice;

1. We agree exactly what type of service you want and identify your requirements.
2. We prepare a plan, or recommend product options, to meet your needs or requests.
3. We agree any implementation and other actions to ensure the service and products work for you.

All Plans are provided in writing, and at the end of the process we give you a complete copy of all documentation for your reference and records. We then remain your Financial Advisers and point of contact for any alterations that may need to be made over time as circumstances and lifestyle changes, as well as portfolio alterations, withdrawals or deposits, and investment advice.

We are only an email or phone call away, and are here to help. We rely on you letting us know if any adjustments need to be made to your insurances or investments over time, as well as if your addresses and contact details change.

OUR PRODUCT PARTNERS

Insurance and Investment Services Ltd works with a group of well-established suppliers with whom we have contractual relationships. This means that we have a close working relationship with these companies and often talk directly to the actual people who manage your investments or insurance policy; people like the investment fund managers, insurance underwriters and claims assessors. That way we can provide a great level of service and help you get the right results.

We always maintain at least **3 options in each product category** in order to be able to offer a choice of provider, and for us to be able to make any of our recommended solutions the best fit for your circumstances from a range of suitable product options.

Insurance and Investment Services Ltd does not have any production performance agreements with any particular product provider, and does not have any commercial relationships or contractual arrangements that present any particular conflicts of interest to consumers generally which would be reasonably likely to materially influence us in providing any financial adviser service.
